

Thermo Scientific Automation Pipette Tips

Made to fit Tecan Automated Liquid Handling Workstations

- Accurate and precise performance
- Low percentage Coefficient of Variation (%CV)
- Validated on a Tecan Liquid Handling Instrument
- Available in Clear or Conductive. Non-sterile, Sterile, and Filtered Sterile formats. Wide bore available in select sizes.
- Packaged in blister packs or space saving Econopaks

Technical Data Comparison*

Percent Coefficient of Variation			
Tip Size	Dispense Volume	Tecan	Thermo Scientific
10 µl	10 µl	1.28%	1.16%
50 µl	50 µl	0.92%	0.74%
200 µl	200 µl	0.50%	0.58%
1000 µl	200 µl	0.91%	0.80%

* Tests performed on the Tecan EVO using an average of 5 racks and Artel Multichannel Verification System (MVS®). For comparison only, individual results may vary.

Thermo Scientific™ automation pipette tips are specifically designed for the Tecan automated liquid handlers. They are validated and tested on a Tecan Liquid Handling instrument and offer the same quality and performance for trouble-free pipetting. Each pipette tip undergoes a rigorous 15-point quality control process to ensure consistency, superior tip straightness and a low coefficient of variation; providing accurate and precise performance. Sterile tips are certified free of RNase, DNase, DNA, endotoxin, bioburden, and pyrogen. Non-sterile tips are certified free of RNase, DNase, and DNA (human).
