

Product Name: Cryovial®

Catalogue No.: T310-10A

Material:

Polypropylene Tube and Cap with Silicone seal

Description:

- 10 ml tube with cap
- External Threaded
- Self-standing
- Printed with graduations and writing area
- Assembled with a cap and a white washer seal
- Compatible with color coding cap insert T312

Packaging:

Bags: 50 units

Case: 500 units

Standards and Conformity:

Gamma Sterilized: SAL of 10^{-3}

Radiation specified dose: between 6.5 and 13.5 KGy

Temperature range: -196°C to +121°C

Autoclavable: +121°C for up to 30 minutes

RNase, DNase, DNA and Pyrogen free: certified

Leak-proof: tested in vacuum at 71.3cm Hg

Liquid Nitrogen resistant: Gas phase of LN²

ISO 2859-1: Sampling and inspection

FDA: Plastics conform to FDA 21 CFR 177.1520

USP: Plastic conforms to USP Class VI

CONEG / RoHS: Plastics comply

REACH: Plastic comply

LATEX: Plastic is Latex free

BSE/TSE: Plastic is BSE / TSE Free

MEA: Product has passed MEA testing

Recommended Use: Designed for storing biological material at temperatures as low as -196°C
Not recommended in the liquid phase of LN². Disposables for single use only.

Storage Conditions: Store at room temperature in normal warehouse conditions. Protect from any possible contamination and any damage to the packaging which could compromise the product sterility.
